LEGISLATURE OF MASSACHUSETTS.

IN SENATE, SATURDAY, OCT. 15.

The committee appointed to enquire whether any members of the Senate have voluntarily assumed upon themselves any obligation to the King or Government of G. Britain, incompatible with their duty as members of the legislature of the commonwealth, or their oath to support the constitution of the United States,

Reported—A statement of facts relative to the Hon. Messrs. FOLGER, of Nantucket, and CAMPBELL, from the district of Lincoln, Hancock and Washington.

That the said Campbell has voluntarily engaged not to bear arms or in any way to serve against H. B. M. his successors and allies, and to consider himself under the British government until further orders, has thereby assumed upon himself obligations incompatible with his duty as a member of the Legislature, and has vacated his seat as a Senator of this commonwealth. They therefore recommend that the seat of the honorable James Campbell, as a senator of this commonwealth from the district composed of the counties of Lincoln, Hancock and Washington, be declared vacant, which report was read, and Monday assigned for the consideration of the same.

The committee on the message of his excellency the governor, reported a circular Letter, to be sent to the governors of the several states, to accompany the resolutions, requesting that the same may be laid before their respective states inviting them to appoint Delegates to meet such others as may be appointed by this and other states at the time and place expressed in the Resolutions, which was read and accepted, and sent down for concurrence.

The last mentioned committee also reported a resolve, requesting his excellency the governor to transmit a copy of said letter after the same shall be signed by the president of the senate and speaker of the house of representatives, to the several governors of the states of N. Hampshire, Rhode Island, Connecticut and Vermont, and also a copy of the resolutions to which it refers, with request that the same be laid before the Legislatures of their several states, was read and accepted, and sent down for concurrence.

From the New York EVENING POST, October 12.

FEDERAL CONVENTION,

AT ALBANY, (N. Y.)

At a numerous and respectable meeting of FEDERALISTS, from different parts of the state of New York, convened at the City of Albany, on the 6th day of Oct. 1814,

Gen. MATTHEW TROTTER, was chosen Chairman, and GEO. P. OAKLEY, Esq. Secretary.

The general objects of the meeting being stated it was Resolved, that John Wells, of the city of New York; James Emott, of the county of Dutchess; Theodore Sill, of the county of Oneida; Daniel Hale, of the city of Albany; and David B. Ogden, of the city of N. York, be a committee to prepare resolutions, to be submitted to the meeting in relation to the said matters.

The committee after retiring, reported the following resolutions, which being separately read, and maturely considered, were unanimously adopted by the meeting.

Resolved—That the situation of our Country is calculated to excite feelings of apprehension and alarm in every bosom. The war into which we have been unwisely precipitated, by the administration of the general government, has involved us in difficulties and dangers long foreseen and predicted, but now universally felt & acknowledged. We, who have invaded others, are now called upon to defend ourselves from an invading foe. We, who have committed depredations upon others, are now the subjects of depredation ourselves. We, who went to war upon speculative questions, are now reduced to the necessity of defending some of our dearest rights, which that war has put in jeopardy, and which never otherwise would have been disputed. Under these circumstances, whilst we feel it to be our duty to endeavour, by every means in our power, to relieve our country from the perils which surround her, we hold it to be equally our duty, unawed by threats and regardless of consequences, peaceably to assemble, and firmly to express our opinions of the men and measures that are the causes of the evils we deplore.

Resolved—That although under the guidance of a weak and inefficient administration—our commerce has been annihilated—our finances deranged—public credit destroyed—a national bankruptcy threatened—and many of our fellow citizens reduced from opulence to ruin; although numerous widows and orphans are left to mourn in penury the loss of husbands and fathers, who have fallen victims to this ill-fated war; and although our soil, our firesides, and our altars are in danger, yet as Americans, we proudly feel that there is nothing in the situation of our country which should make us despond. The administration have indeed wasted much, but we have abundant resources still left? much of the spirit and energy of the nation remain; and if entrusted to the direction of abler councils, the talents, wealth and valor of the nation may yet be successfully employed in maintaining its rights, its independence and honor. Whilst, therefore, we are called upon by every motive of patriotism, to rescue our country from the ruinous condition into which the incapacity of its rulers has plunged it, we are bound to exercise our constitutional rights and privileges to place the administration of the government in the hands of faithful and practical men, as the only means of maintaining a vigorous war and obtaining a speedy and honourable peace.

Resolved—That it is the duty of the general government to provide for the common defence, and they ought to have afforded to this state that protection to which it is justly entitled, not only as a member of union, but as one that has more largely than any other contributed to the treasury of the U. States. Altho' the administration have shown their unwillingness or incapacity to do this, still we are not unmindful of the obligations imposed upon us by the duty of self defence. The imbecility of the general government has left us no choice but a surrender of our rights as freemen, or the vindication of them by individual energy, and the resources of the state.

Resolved—Therefore, that it is the duty of the people of this state to defend at every hazard, their soil from invasion, and never to suffer it to be polluted by an hostile foot, without making every exertion to defeat and expel the foe; and that whilst we will never cease to expose and condemn the measures of an administration that has spread ruin and disgrace over our country, we will cheerfully unite with our fellow citizens, however much we may differ from them in political opinions, in every constitutional and practical measure of defence, which the exposed situation of this state may require, and that instead of indulging in unmanly fear, we will strive by every effort in our power to rescue our country from its present degraded condition, and restore it to that high state of prosperity and honor from which it has fallen.

(Signed)

MATTHEW TROTTER,
Chairman.

GEORGE P. OAKLEY,
Secretary.

From the Boston Daily Advertiser, October 19.

"We find in the Halifax papers a Kingston, (Jam.) article of September 7, which states, that Gen. Balesteros with 10,000 men, had sailed from Cadiz for Santa Martha. Gen. Capons was ready to embark with 20,000 Spanish and Portuguese troops for Louisiana, and that Gen. Lacy was shortly after to leave Spain with an equal number of men for La Plata and Chili.

LONDON, *August 11.*

From a German paper an extract is made this day highly deserving of grave consideration. From Paris, from Germany, from every quarter, with regret, we find it confirmed, that a hot and restless desire of war is impatiently expressed by the military faction in France, if faction that can be called which comprehends nearly half the nation, and almost all the active men of influence in all the ranks of society. We have endeavored to refuse credit to these accounts of the state of the public spirit in France, but with reluctance we are forced to confess they come in such various ways by channels so indisputably authentic, that it would be misleading the public to deny or even to doubt them. If the French government, which certainly is most sincerely pacific, gives apparently some encouragement to this disposition, we are persuaded it does so merely to amuse it, to divert it from mischief, that in time may wear itself out and die away, as other objects of a civil nature, suited to a state of peace, grow up to engage the the general attention.

Hence the large military establishments kept up by Austria, and by England, as well as by France, where they are necessary to preserve hope and good humour. Hence the encreasing English army in the Netherlands, the loss of which the French regret most severely, and the recovery of which is so important to England, the separation of these countries from France being one of the oldest, most wise, and legitimate objects of British policy.

SALEM, *(Mass.) Oct. 20.*

The Stranger and cargo sold for about 72,000 dollars, which was far short of the general expectation. The cannon and many other articles, sold very low. Thirty of the 24lb guns, sold for 390 dollars a piece. The purchasers now hold them at 800 dollars! If the sale had taken place a few days later, the cargo would have sold for a much larger sum. The other guns brought 410 and 510 dollars each. The ship $ 3,400.

CHARLESTON, (S. C.) *October 13.*

Extract of a letter dated St. Mary's, October 7.

"I am sorry to inform you, that the convoy was attacked yesterday morning, between 12 and 1 o'clock, at the high point of Cumberland, by 10 barges—they succeeded in capturing one Gun-Boat, commanded by Captain Paine, and nine coasters, viz. Jack-o'lantern, Fish Hawk, Rachel and Jane, Celia, Ajax, Squamscott, Live-Oak, and a Carolina schooner which they burnt, with another name not known. It is now blowing a gale, or I have no doubt they would make an attempt. The capture of the gun-boat will entirely put a stop to the inland trade, as the enemy will be able to use the same as a decoy.

RICHMOND, (Va.) *October 25.*

Extract of a letter to C. W. Gooch, Esq. Ass't Adjutant General, dated "Hampton, October 23.

"SIR—I have to inform you of the daring insolence of the enemy. Yesterday about one o'clock, six barges, three of which were of a small size, and armed with muskets, and the sixth of a larger size, and armed with one twelve pound carronade, attacked two of the Hampton packet boats and two craft, not far from the mouth of Hampton creek, all of which they took; one of the packets being aground they were obliged to burn her, and the other in carrying her down to the ships they ran aground, when the barges from the Constellation retook and carried her up to Norfolk. One of the craft, loaded with whiskey and butter, they carried down to their ships, and the other they gave up to the prisoners.—The force of the enemy in the bay has not been increased since my last report."

We understand, that a few days ago, a British bomb-ship landed from 15 to 20 men in a barge in Northumberland county, who carried off some stock and 22 slaves.

NORFOLK, *October 22.*

On Wednesday evening last, 8 of the enemy's barges, belonging to some of his ships in the offing, entered Currituck Inlet, and, it is reported, destroyed a schooner and some salt works.

BALTIMORE, *October 17.*

NEW YORK, *October 24.*

The committee of defence having reason to believe that this city is in danger of an attack from the enemy, and that it may reasonably be expected to take place in a few weeks, deem it proper thus to make it known to their fellow citizens, at the same time they call on them for a renewal of their patriotick labors without delay for a completion of the defences at Haerlem, being convinced that the zeal and activity of their fellow citizens, will in a few days place those works in such a formidable situation as to afford an effectual resistance to any force which may be brought against the city.

LATEST FROM SACKETT'S HARBOUR.

From the Albany Argus, Oct. 21.

A letter from Sackett's Harbor, dated the 17th inst. states that the fleet of the enemy were seen off the Ducks on the day preceding, supposed to be bound up the lake. Our fleet remained in Sackett's Harbor, at anchor.

Albany Oct. 22.

A letter from Sackett's Harbor, from the Commissary of Ordnance, dated the 19th, states, no news. Nothing new by the western mail last night.

A gentleman arrived here yesterday in the Steam boat, who left Sackett's Harbour on the 16th inst. and reports, that the enemy's fleet was off the Ducks, but had not sailed; that the large ship came over the bar, and then took her guns on board; that an expedition was fitting out at Kingston, destination unknown; that our fleet were moored in Sackett's Harbor, excepting the Sylph & Jones, which were employed as look-out vessels; that Sackett's Harbor was considered perfectly safe; that 10,000 militia had arrived there as a reinforcement to the regular troops; and that about 300 sailors had reached the Harbour from lake Champlain, and 100 more were within a few miles of that place.

From the Boston Palladium, of October 21.

FROM HALIFAX.

Admiral COCHRANE sailed from Halifax on the 12th inst. in his own ship, the Tonnant, 74, unaccompanied by any other. He remained at Halifax but a few days, and took with him a quantity of light artillery. It was tho't he was on his return to the Chesapeake.

The admiral sailed apparently in great haste, being towed out of the harbour by boats. It was said he came to draw from the place all the regular troops and have the forts garrisoned by militia; but gov. SHERBROOKE would not agree to the arrangement. The general opinion was that he had a new expedition in view and was to meet his force at some particular place to execute it.

The 64th and 98th skeleton regiments, and a battalion of German troops, were at Halifax. A great many blacks were there, bro't from the Chesapeake, who the people were dissatisfied with having brought there.

There were about 12 sail of men of war in port, including 2 or 3 sail of the line, and 5 or 6 frigates.

The body of Sir PETER PARKER, who was killed in Maryland, was sent to England in the Acbar.

By the last London papers we learn, that American privateers continue to annoy the British Channel, and that one of them actually cut out a vessel from the bay of Dublin, within a few miles of that great city. We recollect when Paul Jones kept the whole of England, Scotland and Ireland in a state of alarm. With some wiser men than we are in these matters, we continue to think, that 40 or 50 swift sailing armed vessels, let loose on the enemy's commerce, would have annoyed him more than any measure we could adopt on the ocean.

Halifax, Sept. 30.

The bodies of the gallant Major General ROSS, and Sir PETER PARKER, late of H. M. ship Menelaus, were bro't here in the Tonnant, and yesterday the corpse of the former was landed, under a discharge of half minute guns from the flag ship; received at the Kings-wharf, by the Grenadier company of the 64th regt. and interred with all those military honors and marks of high respect due to his rank and distinguished services.

NASHVILLE, (Ten.) *October 18.*

Gov. Blount received orders by last mail to call out 5000 militia, to be sent immediately to Gen. Jackson. Government have received intelligence, "that the enemy have in contemplation an expedition against the state of Louisiana, through the Mobile, with intention to occupy all the country from Cape Florida to the provinces of Spain westward of the Mississippi."

This call will, no doubt, be met with promptitude by our citizens; and the ample resources now providing by government, together with the force already in the field, will, we have every confidence, inflict a just punishment on his temerity, should the enemy dare make the attempt.

The late requisition of 5,000 militia, from this state to join Gen. Jackson, are ordered to rendezvous, the 3,000 from West Tennessee, at Columbia, on the 13th of next month; the 2,000 from E. Tennessee, at Knoxville, on the 13th of next month. Brigadier Gen. Smith will command one brigade; and Brig. Gen. Coalter the other. The whole under the command of Major Gen. William Carroll.

So soon as the above troops are mustered into service, Tennessee will have furnished since the commencement of the present war with Great-Britain, volunteers and militia, amounting to 26,000 men; besides, about 2,500 regulars, the greater portion of which are now in service.

WASHINGTON CITY, *Oct. 26.*

Copy of a letter from Maj. Gen Brown to Com. Chauncey, dated

H-Quarters, Buffalo, Sept. 4

Sir—Your letter of the 10th ult. after going the rounds, was delivered to me a few days since, on my way to this place.

The exception you take at my letter to the secretary, would be very reasonable and proper, provided the fleet of lake Ontario was your private property, over which the government had no controul. But as I have been induced to believe that it was property of the nation, subject to the orders of government; and as the government led me to believe that the fleet under your command would be upon lake Ontario, to co-operate with my division of the army, I have deemed it proper to let the nation know, that the support I had a right to expect was not afforded me

I consider my conduct towards yourself and the navy, as not only honorable, but, sir, as being very liberal & friendly, from the date of my report of the battle at Sackett's Harbor to the present hour. The troops under my command have always been disposed of so as to meet your views to the extent of my power and authority; and as far as was consistent with the rights and honour of the army.

Your information appears very incorrect as to the situation of the army previous to the arrival of reinforcements with lt. gen Drummond. From the 9th of July to the 24th the whole country was in our power from St. George to Burlington heights; and could the army have been supplied with provisions from the depots provided on the shores of Lake Ontario, we should not have doubted our ability (without reinforcements or additional guns) to carry the heights; when we could have returned on forts George and Niagara, or advanced upon Kingston, (as might have been thought most advisable) with the co-operation of the fleet.

You speak of responsibility. I do not desire you or any man, to be responsible for me. I have endeavoured to execute the orders given me; success has not attended my endeavours; but I humbly trust in heaven, that the honor of the brave men entrusted to my command has been and will be preserved, let what may happen.

It will be very difficult to retire from fort Erie, pressed as the remains of my gallant little army are, by a superior force of the enemy. But no other alternative will be left us, unless reinforcements speedily arrive. The militia are coming in in very considerable numbers, but it is not yet ascertained how ma of them will cross. The secretary ha given me to understand, that gen. Izard would move to the St. Lawrence, with a view of attacking Kingston, (should he and you deem that measure advisable.) Should you decide otherwise, that Gen. Izard would come with, or send to me a reinforcement of from 2 to 3000 men.

I have not heard from gen. Izard, and begin to apprehend that something has occurred to retard or prevent his movement. I will thank you for any information you can give me on this subject.

I am, sir,
With great consideration & respe
Your obedient serv't.
JACOB BROWN.

WAR MEASURES.

In the House of Representatives of the United States, on the 27th October, Mr. Troup, *of Geo.* from the military committee, reported a bill making further provision for filling the ranks of the regular army, by classifying the free male population of the United States.

[This bill proposes to provide for the division of the whole free male population of the United States, by the assessors, into classes of twenty-five men each—each class to be compelled, under a penalty of —— hundred dollars to furnish, within —— days after the classification aforesaid, an able-bodied recruit for the service of the United States. The bill is of some length; and contains very full provisions for carrying itself into effect.]

Mr. Troup also reported a bill "To authorize the President of the U. States to accept the services of volunteers who may associate and organize themselves, and offer their services to the government of the United States."

[The title of this bill sufficiently explains its object.]

Mr. Troup also reported a bill "To provide for the further defence of the frontiers of the U. States by authorizing the President to augment the present military establishment."

[This bill proposes to provide that in addition to the present military establishment of the United States there be immediately raised forty regiments in such proportions of infantry, artillery, riflemen and cavalry, as the President of the United States may deem proper, to be enlisted to serve during the war, unless sooner discharged, and limited as to service to the defence of the frontiers of the United States, &c. &c.]

The three bills were severally twice read and referred to a committee of the whole.

Mr. Troup also laid before the House the following letter from the Secretary at War to the military committee.

Department of War, October 17.

SIR—The great importance of the subject, and the other duties of the department, which could not fail to be very sensibly felt, at so interesting a period, by a person who had just taken charge of it, are my apology for not answering your letter of the 24th Sept. at an earlier day, on the defects of the present military establishment.

Due consideration has been bestowed on the subject matter of that letter, and I have now the honor to submit to the committee the following report:

1. That the present military establishment, amounting to 62,448 men, be preserved and made complete, and that the most efficient means authorised by the constitution and consistent with the general rights of our fellow citizens be adopted, to fill the ranks, and with the least possible delay.

2. That a permanent force consisting of at least 40,000 men in addition to the present military establishment be raised for the defence of our cities and frontiers, under an engagement by the executive with such corps that it shall be employed in that service within certain specified limits, and that a proportional augmentation of general officers of each grade, and other staff be provided.

3. That the corps of engineers be enlarged.

4. That the ordnance department be amended.

Respecting the enlargement of the corps of engineers, I shall submit hereafter a more detailed communication.

For the proposed amendment of the ordnance department, I submit a report from the senior officer of that department in this city, which is approved.

I shall be ready and happy to communicate such further remarks and details on these subjects as the committee may desire, and shall request permission to suggest hereafter the result of further attention to, and reflection on, our military establishment generally, should any thing occur which may be deemed worthy its attention.

I have the honor to be, &c.

JAS: MONROE.

Hon. G. M. Troup, chairman military committee, house representatives.

SUMMARY.

Governor Snyder has been called upon by the Secretary of War to furnish 4000 militia for the service of the U. States, to rendezvous in a direction towards Baltimore. They will be drawn from the fifth and ninth divisions. Corps of infantry and riflemen from the twelfth, thirteenth, fourteenth, and fifteenth divisions are invited to tender their services.

The legislature of Massachusetts has appointed delegates to a convention, to meet at Hartford, in the state of Connecticut, on the 15th of December next, with those who may be sent from the other states.

The command of the New-York military district is transferred from Major Gen. Lewis to Gov. Tompkins.

The report of the capture of a transport ship, with 500 troops, is unfounded.

The specie of the different banks at Charleston, (S. C.) has been removed to Columbia, in that state, for greater security.

An expedition from New-Orleans has completely succeeded in breaking up the piratical establishment at Grand Terre, or Barrataria. Several vessels, some specie, goods, &c. were seized. Lafitte, the chief pirate, escaped. His second in command, with other ringleaders, were taken.

A court martial has been ordered at Quebec, to enquire into the conduct of Gen. Proctor, in Upper Canada.

Robert Wharton, is elected Mayor of the city of Philadelphia. The Philadelphia Gazette, says, "We congratulate our fellow citizens on the return of an active, upright, and intelligent police."

Jonathan Williams, Joseph Hopkinson, William Milnor, and T. Smith, distinguished federalists, and men of talents, are elected to Congress from the district of Philadelphia city and county and county of Delaware.

Thirteen members of the Senate of Massachusetts, and seventy-five members of the House of Representatives, have entered their protest against the resolutions of the legislature appointing delegates to meet in convention at Hartford, &c. These papers are drawn up with considerable ability.

Martin Chittenden, Esq. is re-elected Governor of Vermont; the federal candidates are elected to Congress, and both branches of the Legislature are federal.

Mr. Purviance, bearer of despatches for our Commissioners at Ghent, sailed in the ship Fingal, from New-York, on the 23d ult.

A fine body of troops, about 4000 from the state of Virginia, passed thro' this city yesterday and day before to the encampment on the Baltimore road. They were commanded by brig. gens. Breckenridge & Leftwich, under maj. gen. Pegram. They were preceded a few days ago by another brigade from the same state, under brig. gen. Madison. These brigades are chiefly from the mountains, and when united will form a corps of 5000 as brave and hardy men as our country can boast. They are a part of the army assembled for the defence of the 10th military district, comprising this city and Baltimore. [*Nat. Intel.*

From the Buffalo Gazette, October 25.

On the 19th inst. an advanced corps of Major Gen. Izard's army, under Gen Bissell, passed from Dead creek, to Cook's mills, on Lyon's creek, and were attacked by a superior force of the enemy: the fight continued an hour; Gen. Bissell maintained his ground, and the enemy were repulsed. Gen. B's loss was about 70, killed and wounded; that of the enemy not known.

On the 23d, the American army lay opposite Black Rock.

On Wednesday last, the British fleet, (the new ship St. Lawrence, of 102 guns being along) anchored off Fort Niagara. Whether the fleet brought up a reinforcement, or provisions, or for the purpose of transporting part of Gen. Drummond's force down the lake, is uncertain.

On Friday last, the brave and energetic Major Gen. Jacob Brown, and suite, (Major Austin and Lieut. Armstrong) left the Niagara frontier, the scene of national glory, and proceeded to Sackett's Harbour. The respect, admiration and gratitude of the nation, go with him.

It is believed, that the enemy meditate an immediate descent upon Sackett's Harbour. The militia of all the counties contiguous, are ordered in en masse.

ERIE, *October 28.*

The enemy have captured the United States' schooner Scorpion, Lt. Turner, and Tigress, Sailing Master, Champlin, on Lake Huron. About 250 Indians in canoes, and a party of British in four batteaux, with one 4 and one 6 pounder, carried the Tigress by boarding in the Bay of St. Joseph's, after a short but severe conflict. The enemy then manned her and proceeded to where the Scorpion was laying at anchor about 20 miles distant and took her by surprise. The Tigress was observed approaching, but was not taken for an enemy until she came in contact and fired a twenty-four pounder into the Scorpion.

SAVANNAH, (*Geo.*) *Oct.* 18.

Arrived on Sunday last, the Spanish schr. Don Francisco Reberra, 11 days from Bermuda. Mr. Jas. L. Saunders, came passenger, with whom we have conversed, informs us that the day before he sailed, a vessel arrived at Bermuda from England, bringing intelligence that war between Spain and G. Britain was momently expected, in consequence of some improper conduct by the Spaniards towards lord WELLINGTON.

Mr. S. states that there are not more than 250 troops at Bermuda, which were left to guard the prisoners. The only vessel of war laying in the harbour was the Morgiana sloop of war, the whole having sailed from that place for the Chesapeake. Five days after leaving B. fell in with the British frigate Æolus, in company with 12 vessels, ships, &c. loadened with flour, &c. taken from Alexandria, bound for Bermuda. The American prisoners in Bermuda are treated badly, their provisions being scanty and of the worst kind.

Pittsburgh, August 10, 1814.

THE importance of providing for suffering humanity is acknowledged by all civilized nations; and the efforts of many parts of our country have been and are still directed in a very laudable degree to this humane object.—There are few places where there is a greater necessity for some further provision for alleviating the wants and sufferings of the poor, than where we live. The legal provision at present for the poor and for relieving their necessities, are such as does not always meet their wants, and are in all cases liable, and in many actually misapplied and made subservient to scenes of riot and dissipation. To remedy all the evils and sufferings of humanity, would perhaps be impracticable. But, it is presumed, that from the observation and experience of those counties where a fair trial has been made, that a POOR HOUSE under good regulations comes nearer to answer the important object, and at a less expence, than any other way hitherto devised.

We, therefore, the Grand Jury of the County, the Commissioners of the County, the Overseers of the Poor in Pittsburgh, and the Humane Society in Pittsburgh, do recommend the erection of a Poor House for the above purposes.

To carry this object into effect, we do also recommend that petitions for said Poor House should be prepared and circulated, and signatures solicited, in order that they may be forwarded to the next legislature as early in their session as possible; and we also agree to use our respective influence for accomplishing this object.

IS now enabled to supply persons wanting WHITE LEAD, with any quantity of this article, either dry or ground in oil, of the best quality, and at as low prices as will be sold in the western country. The manufactory has been for some time in successful operation, and all the lead now sold is warranted good.—Persons forwarding orders may rely upon receiving prime lead, as J. S. S. holds himself responsible for the quality; and also that the price shall be as low if not lower than any persons in the western country will sell at, and materially lower than the Philadelphia price with carriage.

The subjoined certificates from all the master house painters in Pittsburgh, will satisfy distant persons of the quality:

WE CERTIFY, that the white lead made at the factory of J. S. Stevenson, is in high repute in Pittsburgh; that we find it possessed of every property to recommend it being a pure white, covering and spreading well, smooth and free from any grit, standing its colour and the weather perfectly, and we believe there is none in the U. S. superior to it. The reputation of the manufactory is indisputable.

Fifty Dollars Reward.

STOLEN out of the pasture of the subscriber in the night of the 23d of September, a valuable

Brown Horse,

about 15 hands high, with some white hairs in his forehead, is a long well made horse, good carriage, and moves well, about 9 years old, had a shoe off his right foot, his mane and tail were not trimmed. Whoever will apprehend the Thief, and confine him in jail, and secure the horse and give information or return him to the subscriber, shall receive the above reward, or for the horse only, 15 dollars and all reasonable charges.

REUBEN HOPKINS.

Goshen, Orange county, New-York, Sept. 24, 1814.

Since the above was published, the thief and horse have been traced to Dingman's Ferry, on the Delaware—a short time previously, at the Log Meeting-house, he got the horse shod.

The following description of the thief may lead to his detection. He is a thick set fleshy man, of a ruddy or dark complexion, past middle age, fond of company and drinking, and is a singer—wears a black hat somewhat worn, dark brown great coat with a very large cape, a plaid gingham coat, black cloth waistcoat, velvet pantaloons worn thread bare at the knees, and common boots—he rode bright bay horse, about 14 hands high, rather low in flesh, which he may probably offer for sale; his sadde is considerably worn and faded, being a quilted deerskin seat and quilted down the skirts; his bridle believed to be a common snaffle; he had also a pair of portmanteaus, which had once been fair leather, now quite rusty. It appears that he has crossed the Susquehannah, and it is supposed is on his way to Pittsburgh, or some part of the western country. Any information of thief or horse, may be gi[ven] to J. P, & J. W. SKELTON, Pittsb[urgh] or B. B. Hopkins, Philadelphia.

GENUINE FAMILY MEDICINES.

BOSLER & Co.

Front Street, between Market & Wood Streets, Pittsburgh,

HAVE just received from *Lee's Patent and Family Medicine Store*, New York, a fresh supply of the following

GENUINE MEDICINES.

For the prevention and cure of Bilious and Malignant Fevers is recommended

HAHN'S ANTI-BILIOUS PILLS.

The operation of these Pills is very mild, so as to be used by persons in all situations, and of every age.

They are well adapted to carry off superfluous bile, and prevent its morbid secretions, to restore the appetite, to produce a free perspiration, and thus prevent Colds, which are often of fatal consequences. A dose never fails to remove a Cold, if taken on its first appearance. They are celebrated for removing habitual costiveness, sickness at the stomach, and severe head-ache, and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured for use by every seaman.

HAMILTON'S WORM DESTROYING LOZENGES,

Which have, within years past, cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from Worms, and from obstructions or foulness in the stomach and bowels.

This Medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age & constitution. It contains nothing but what is perfectly innocent, and so mild in its operation that it cannot injure the most delicate pregnant lady, or an infant of a week old, should no worms exist in the body; but will, without pain, cleanse the stomach and bowels, of whatever is foul, and and thereby prevent the production of worms, and many fatal disorders. The Lozenges are efficacious in taking off all gross humors and eruptions, feverish complaints, and the safest and mildest purgative that can be used on any occasion.

A dose of this medicine given occasionally during the warm season, will prevent "the vomiting and purging of children"—a disorder which annually destroys thousands of the infant part of our citizens. It is also the mildest and most certain remedy known, and has restored to health and strength a vast number when in advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance and a mild taste.

HAMILTON'S ESSENCE & EXTRACT OF MUSTARD,

A safe & effectual remedy for rheumatisms, gout, palsey, sprains and bruises, white swellings, old strains and relaxations, numbers and weakness of the neck, pains of the side, head ache, swelled faces, frozen limbs and every similar complaint. It prevents chilblains or chopped hands, and the ill effects of getting the feet wet.

THE DAMASK LIP SALVE.

THE RESTORATIVE POWDER FOR THE TEETH AND GUMS.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and the foulness, which if suffered to accumulate never fails to injure and finally ruin them.

HAMILTON'S *GRAND RESTORATIVE*,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavorable to the constitution the immoderate use of tea, frequent intoxication and destructive intemperance, the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.

HAMILTON'S ELIXIR,

Celebrated for the cure of colds, obstinate coughs, asthmas, and approaching consumptions, and a certain remedy for the whooping cough.

HAHN'S GENUINE EYE WATER.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

TOOTH ACHE DROPS.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

LEE'S OINTMENT FOR THE ITCH.

Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

LEE'S INFALLIBLE *AGUE AND FEVER DROPS.*

For the cure of agues, remittent and intermittent fevers.

HAHN'S TRUE AND GENUINE GERMAN CORN PLAISTER.

☞ *The above Genuine Medicines, are Sold ONLY, by*

BOSLER AND Co.

Who are are appointed sole agents for PITTSBURGH.

☞ At the place of Sale, Pamphlets may be had gratis, describing cures performed by the above Medicines; the number, importance and respectability of which, fully justify every article of the advertisement.

DOCTOR HANDY'S, *WORM DESTROYING* LOZENGES,

A safe and efficacious Medicine for destroying and bringing away

WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary. The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable Medicine* has often been known to remove half a pot-full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the reader's time. We shall therefore only observe, for the benefit of those who are unacquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times, the belly is hard, painful and distended with wind—costiveness, head-ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic, or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above, and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

The above valuable Medicine is sold only by

J. P. & J. W. SKELTON,

at their wholesale and retail Drug Store, at the corner of Wood and Third Streets, Pittsburgh.

Doctor CHISHOLM'S Anti-Bilious Pills,

OF A QUALITY

Superior to any thing of the kind ever offered as a

GENERAL MEDICINE,

IN THIS COUNTRY,

NOW prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates

This extraordinary medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of Anti-Bilious Pills. The extraordinary powers of this medicine as a solvent and evacuant of bile, is without example; never producing debility, or injuring the health, in the smallest degree, of the most delicate child, or weakly female.

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excruciating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains*, wherever seated.

A single Pill, taken every fourth hour with a cup of flax-seed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and *diseases of the liver*, no medicine ever yet discovered, has been known to perform such cures. Two Pills, taken every third morning, will be found sufficient, unless costiveness prevails: in which case, the dose may be increased according to the strength or constitution.

The *Dysentery*, *Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are bringing the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY in Pittsburgh, by

J. P. & J. W. Skelton,

At their Wholesale and Retail Apothecary and Drug Store.

BRIGHTON IRON WORKS FOR SALE.

THIS elegant establishment consists of a *Furnace, Forge, Grist and Saw Mill*, together with extensive Coal Store and Dwelling Houses, situate at the middle falls of Big Beaver creek, one mile from navigable water, 3 miles from the Ohio, 3 miles from the town of Beaver, and 28 miles from Pittsburgh. The Grist and Saw Mill are now usefully employed, and can be made very productive at a small expence. The Furnace and Forge are equal to any in the western country. The scite for water works comprises advantages equal if not superior to any on the Brandywine. The adjacent country abounds with ore, fuel and provisions, and the facility of transportation by water from the works to every part of the western country promises a sure and steady market for all its productions. The works are well supplied with first rate forge and furnace hands. The forge is now in operation, and the usual number of hands and teams are constantly employed in providing stock for a new blast, which it is intended shall take place about the 1st of March next, whether sold or not. The casting house is spacious and well suplied with flasks, patterns, and other requisite articles.—Possession can be given either before or after the first of March, as may be agreed upon, a fair price being given for the stock on hand.

ALSO FOR SALE.

A valuable Tract of Land on the east side of the creek, opposite the Iron Works, affording a scite for water works equal to any on the creek, on which is erected a Grist Mill and two Dwelling Houses, and a small Farm opened.—The whole of this property will be sold, together or separate as may best suit the purchaser, and the terms made easy.
